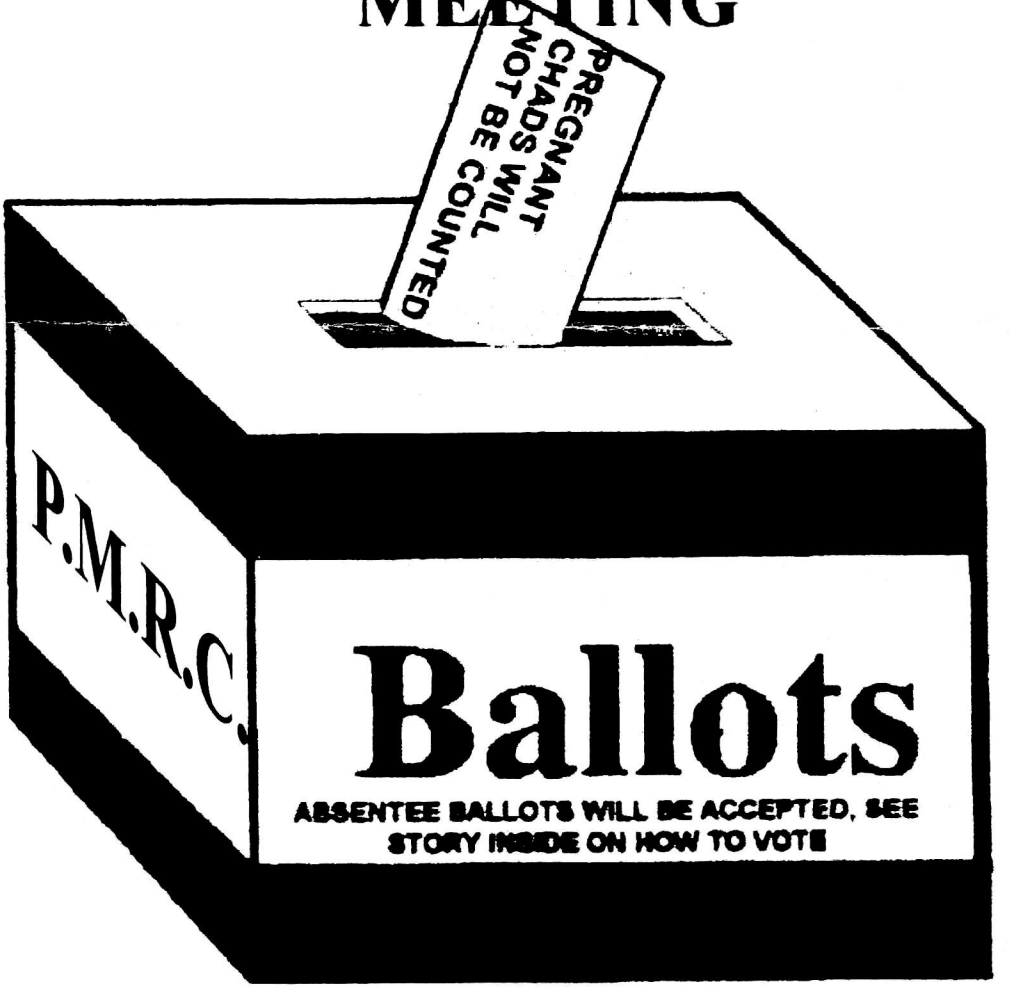
ELECTIONS TO BE HELD AT DECEMBER 13th GENERAL MEETING



THE JUDGE OF ELECTIONS, W3BBB, SAYS: "THERE WILL NOT BE ANY RECOUNTS"

The **Blurb** is published monthly by, and for, the members of **The PHIL-MONT MOBILE RADIO CLUB, INC.** whose purpose is to promote Amateur Radio in general, and Mobile Radio in particular. Copying and quoting is permitted with a credit line. We gladly exchange publications with other amateur radio clubs. Requests should be sent to the Editor. Subscriptions are available to nonmember for $10 addressed to the Treasurer. The club meets at 7:30 PM on the *second* non-holiday Wednesday of every month at **The Franklin Institute Science Museum**, Benjamin Franklin Parkway at 20th Street, Philadelphia. Enter from Winter Street or the parking garage on 21st street. **ALL VISITORS ARE WELCOME!**
Amateur Radio License Examinations are held on the *first* non-holiday Thursday of every month at The Franklin Institute Science Museum—registration begins at 6 PM; doors close at 6:30 PM-*SHARP!*

Tuesday CW practice Net at 20:00—147.030 MHz FM (except summer months)
Sunday Morning 2-Meter Net at 09:30—147.030 MHz FM
Sunday Morning "10-on-10" Net at 10:00—28.393 MHz SSB (+/- QRM)
Sunday Morning 75-Meter Net at 10:20—3.993 MHz SSB

Minutes

Carol Sebzda, N3PVO, Secretary

NOVEMBER DIRECTORS' MEETING

Bill (W3AOK) opened the November Directors' Meeting at 7:10 p.m. The following were there: Bill (W3AOK), Charlie (W3WF), Carol (N3PVO), Mike (K2BN), Rick (N3DHI), Steve (WU3I), Dick (W3RM), Ed (KB3IV), Al (W3STW), Jim (W3BBB), Mike (N3MT), Gene (N3XKE), Ted (KB3CYE), Dean (N3TAL), and Fred (WA3KIO). The following reports were given:

TREASURER - Mike (K2BN) reported that this time of the year, the financials are rather simple; we don't receive very much money. We should finish the year on budget. Steve (WU3I) added he had received a financial statement from the Institute showing all of the expenditures from W3AA, and all monies were accounted for.

ELECTION COMMITTEE - Mike (N3MT) gave a report on the status of the nominations: Bill (W3AOK) will be running for President, Ed (KB3IV) will be running for Vice President, Reds (W3RED) will be helping with the Secretary position, Mike (K2BN) will be running for Treasurer. The nominations for the three Board positions for Board of Directors' are Gene (N3XKE), Steve (WU3I), Dick (W3RM) and Charlie (W3WF). Nominations will be taken from the floor at the General Meeting, and will be officially closed at the Meeting.

PUBLICITY - Dick (W3RM) reported he had sent notices to various magazines and clubs about the annual auction to be held at the January Meeting.

REPEATER - Jim (W3BBB) reported we were one board short for the new controller but, that will be taken care of. The UHF equipment will not be here until about January but there is plenty of other work to be done until then. The approval has been received to use the new location for the Chester County offsite. Bill (W3AOK) noted he would have access to a few 486 laptops for use in conjunction with the new controller.

NET CONTROL - Ed (KB3IV) introduced the idea of moving the CW Net to a different night of the week. Having already conferred with the control operators, the idea was discussed with the Board and it was approved to move the CW Net night from Tuesday night to Thursday night.

With no further business for discussion Bill (W3AOK) closed the meeting at 7:46 p.m.

NOVEMBER GENERAL MEETING

Bill (W3AOK) opened the 601st General Meeting of the Phil-Mont Mobile Radio Club at 8:16 p.m. Bill announced the scheduled guest speaker had canceled, and that he would be doing a program. The following reports were given:

FIELD DAY - Steve (WU3I) reported we came out 11th in the standings for 5A out of 90 entries with 6400 points. The important thing is everyone had fun.

W3AA - Steve (WU3I) reported PSK is up and running and instructions are posted to help the operators. We still need the BBS up, and the 570S radio back for 6 meters. Once they are back in place the station will be back to 100%.

PUBLIC SERVICE - Charlie (W3WF) reported the next event is Brian's Run, in West Chester, on Sunday Dec. 3rd. Volunteers are still needed.

NET CONTROL - Ed (KB3IV) announced the CW Net would continue, but would be moving to Thursday night at 8:00 p.m.

NOMINATION - Dick (W3RM) read the list of nominations, and opened the floor for further nominations. The nominations were then closed. The list of nominees are as follows: President - Bill (W3AOK), Vice President - Ed (KB3IV), Treasurer - Mike (K2BN), Secretary - Fred (WA3KIO) with Reds (W3RED) as backup, and running for the three Board positions are - Gene (N3XKE), Steve (WU3I), Dick (W3RM) and Charlie (W3WF). Bill (W3AOK) appointed Jim (W3BBB) the Judge of Elections which will be held at the December Meeting. Absentee Ballots will be accepted.

Having no further business for discussion the meeting was closed at 8:35 p.m. and turned over to Bill (W3AOK) who gave us a great presentation on GPS..

184th Monthly Phil-Mont VE Test Session Statistics for November, 2000

4 candidates took 2 elements
1 new amateur, and 3 upgrades

The VE team was chaired by Dusty Rhoads, ND3Q,
and assisted by Jeff Kerber, N3VE and Jim McCloskey, NS3K
Future test sessions will be held on Dec. 7, Jan. 4, Feb. 1, Mar. 1.

V.E. EXAMINATION SITES

Confirm all information, in advance, with the contact person. Licensed applicants must bring the original, and one photocopy of their license. All applicants, including children, must show two other types of ID. Also bring the original, and a copy, of any Certificate of Successful Completion needed to prove current status. **The ARRL VEC's 2000 test fee is $6.65.**

The PREZ SEZ

W3AOK

Talk up AO-40 and ARISS.

If you are not familiar with the above terms, do amateur radio a favor and read up on them, and spread the word. These two amateur radio milestones will generate a great deal of interest from non-hams, so have the answers when some prospective hams ask about them. International Space Station (**ISS**)—Amateur Radio on the International Space Station (**ARISS**)

ARISS Ham Radio Equipment Test a Success (CNN) —

The first residents of the International Space Station enjoyed a few days rest before preparing for the arrival of a Russian spacecraft crammed with tons of supplies. During their down time they hooked up a ham radio and spoke with people more than 200 miles (320 km) below on Earth.

The crew of two cosmonauts and one astronaut over the weekend successfully fired up their new ham radio equipment in Zarya, one of three modules currently comprising the orbiting outpost, NASA said. The agency said the trio would use the radio to talk with school children and ham radio operators throughout the world. But a NASA spokesman at Mission Control in Houston said Monday he did not know who the crew spoke with during their first ham radio conversations.

These callsigns are available for use on the ISS:

William Shepherd KD5GSL
Sergei Krikalev U5MIR
German callsign DL0ISS
Russian callsign RZ3DZR
USA callsign NA1SS
Packet station mailbox callsign RZ3DZR-1
Packet station keyboard callsign RZ3DZR

Initial operations will only take place on the 2m band.

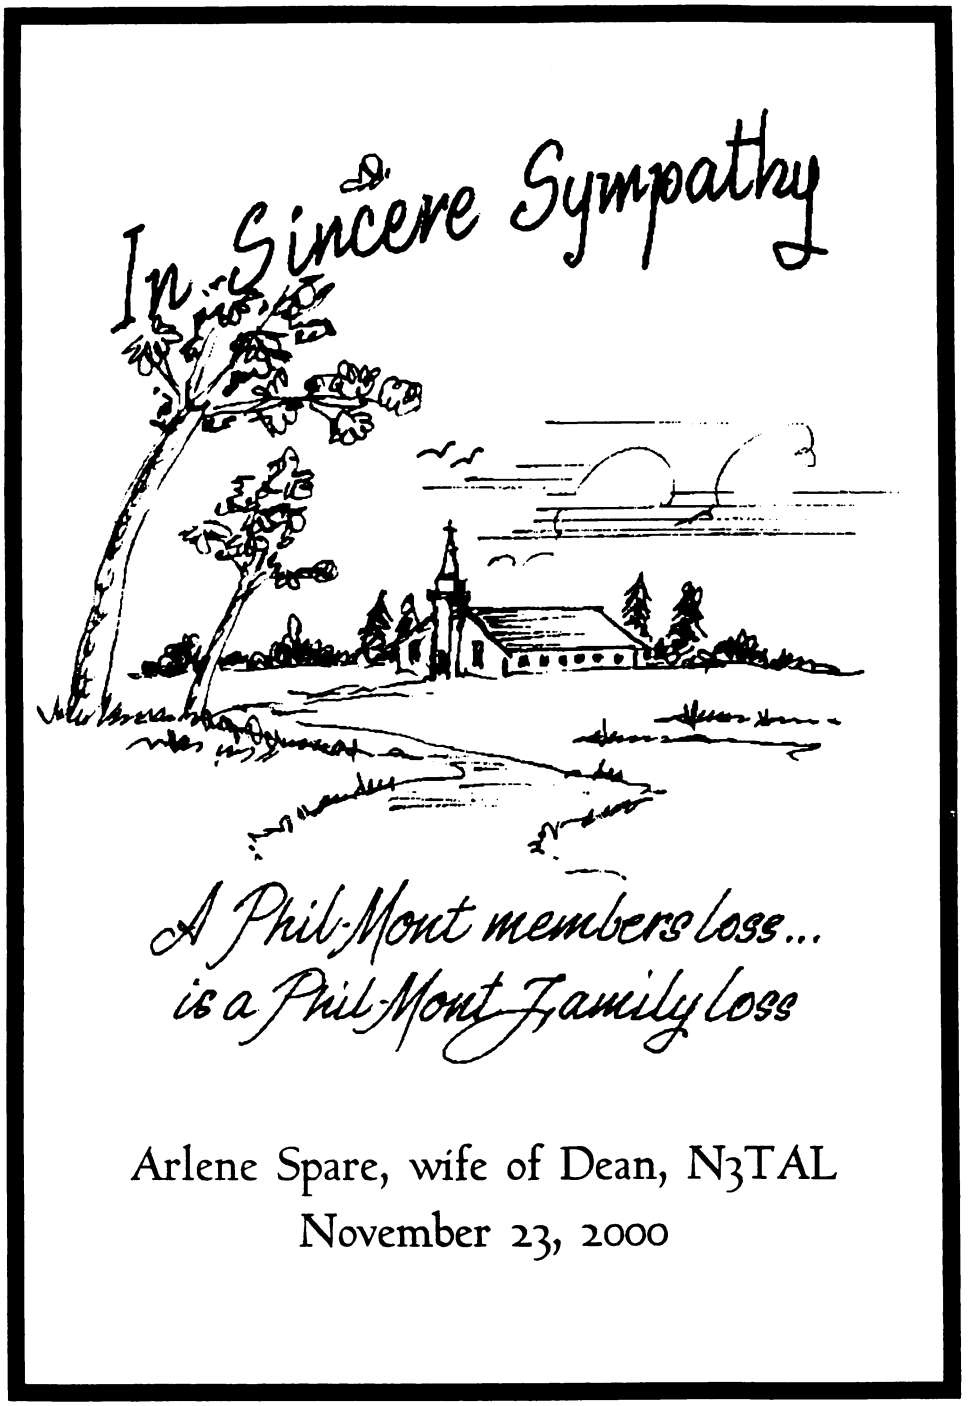
Here are the tentative frequencies for Expedition One operations:

Worldwide downlink for voice and packet: 145.80
Worldwide packet uplink: 145.99
Voice uplink: 144.49

Visit http://ariss.gsfc.nasa.gov/ for more information.

The next-generation AMSAT Phase 3D Amateur Radio satellite (**AO-40**) blasted off from Earth on schedule November 16 at 0107z. Listen for AO-40 beacons on 435.450 MHz., 2400.200 MHz 2400.350 MHz, 2400.600 MHz ,and the PSK beacon on 145.898 MHz. Phase 3D is the largest Amateur Radio satellite ever put into space. Plans are in place to make AO-40 available for a limited period of general amateur use possibly within a week or two, but the satellite will not be up to full power until it is boosted to a higher orbit and its' solar panels deployed this summer.

The most likely configurations for the limited test period would be Mode U/V (Mode B)—70cm up and 2 meters down—and Mode L/S—1.2 GHz up and 2.4 GHz down, SSB and CW. Software for decoding the AO-40 beacons with a computer soundcard is available for downloading on the AMSAT website at http://www.amsat.org.



ELECTION TIME

(No Recounts!)

The Phil-Mont Mobile Radio Club, Inc. is a Pennsylvania non-profit corporation governed by a board of eleven directors, four of whom serve also as officers. The four officer/directors, and one director appointed by the president-elect, serve one-year terms. The remaining six directors are elected for two-year terms—staggered so that three seats are up for election each year. Thus, at the election meeting on December 13, Phil-Mont members will cast ballots for a president, vice-president, secretary, treasurer, and three directors.

The nominating committe has secured a candidate for each office, and four candidates will run for the three open director positions.

On election night, prior to the balloting, each candidate wishing to do so will be allowed three to five minutes to solicit your vote.

Absentee Voting: If you cannot attend the meeting to vote in person, the bylaws provide for absentee balloting. To cast an absentee ballot, write your choice of candidate for each office, by name and call sign, on a piece of paper. Seal your ballot in an envelope, and mark "ballot" on the outside. Enclose the ballot envelope in a mailing envelope. This outside mailing envelope MUST have your name and call sign in the return address area, so that your membership status can be verified. Send your absentee ballot to the Judge of Elections, Jim Spencer, W3BBB, 500 Troxel Road, Lansdale, PA 19446-4625, and mail it in time to arrive by December 13, or have it hand delivered to W3BBB by 7:30 pm on election night. If time does not permit submitting your written ballot, you may register your vote by telephone. Call Jim, W3BBB, at 215-362-5172 anytime before noon on December 13. You may also submit your vote via e-mail to Jim at: w3bbb@enter.net.

The W3AA Report

Nothing much new at the station this month; all is well and working. We are investigating an audio (mike) problem with the TS-950. I have had contact with the repair person of the TS-570sat, and we might see it before year's end (hope hope).

We still await the Packet BBS from W3CH all else is ready. All Operators are encouraged to check the Alinco Packet BBS radio every day. I have found it to be changed to 145.00, when it should be on 144.99 ALL THE TIME. PLEASE DO NOT CHANGE THE FREQUENCY OF THIS RADIO.

NOW for the BIG PROBLEM. The Ten-Tec was found with no power output on Sunday 11/27/00 when I was there to look into the distortion on the 950's audio. The culprit looks like operators not reading the instructions for PSK31, and running the Ten-Tec at 100 watts, not at 25 watts as the instructions direct. PSK31 is a full duty cycle mode, and none or the radios in our station can do that. To boot, more that 40 watts distorts your signal all over the area. The logbook tells the tale with contacts logged at 100 watts! I personally have worked into Eastern Europe with 20 watts, and my beam 90 degrees off heading.

If you want to operate our Station you must read all the literature especially when new equipment such as a new mode is installed.

Best Holiday wishes to all.

Steve WU3I

Richard Moll, W3RM
Candidate for Director

First licensed as a teenager in 1949 (the year Phil-Mont was founded), with the call W3PDJ, I upgraded from class "B" to Class "A" in 1950, and to the then-brand-new Extra Class in 1952. (Hold Extra Class license certificate #AE-54). Changed to a 1x2 call, K3DL, in 1974; and, in 1976, I was able to select my initials, W3RM, under an FCC one-year "window" which permitted 25-year-Extra-Class licensees to select a 1x2 call of their choice.

Continuously active for more than 50 years, I have all-band fixed stations at my homes in Abington and in the Poconos.

I'm proud to have been associated with Phil-Mont for most of those years, during which I have served the club as a repeater control operator; as a member of the board of directors for a number of terms; as NCS of the weekly code practice sessions since their beginning; as a VE; and as a volunteer operator at the Institute.

My committee activity has included the nominating, awards, budget, field day, repeater, publicity, and bylaws committees.

I respectfully solicit your vote for re-election to the Board of Directors; and, if elected to another term, I shall continue to give Phil-Mont's business my best attention.

Thank you, and 73.
Dick, W3RM

Fred Rice WA3KIO
Candidate for Secretary

I was first licensed in 1966 as WN3HOY. I lost that call, not being able to take off from school. Around June of 1967, I passed my General and received my present call. I passed the Advanced test in 1968. Due to other responsibilities, I became inactive in the early 80s, only to get interested again in 1997. I passed Extra in 1998 and joined Phil-Mont around that time.

I am one of the 75 meter net controls, running it with a vintage station which is one of my passions. I am also very active with PSK31, which I had the chance to demonstrate on Field Day.

I look forward to serving as Secretary, and also to being a Phil-Mont member.

Gene DiNardi, N3XKE
Candidate for Director

My interest in radio started over twenty-five years ago starting with monitoring police and fire calls and of course that "other band", 11 meters. Although I did get my Novice License back then, after taking radio classes at The Franklin Institute, other things in my life kept me from keeping it active.

In 1996 I received my Technician class license, and have upgraded to Tech Plus and General over the past few years.

My interests with radio vary from dx listening, public service and emergency communications, to satellite communications.

I was elected to the Board of Directors in 1998, and have participated in a number of club activities including Field Day, MS150, and other committees.

One of my favorite activities is keeping Jim (W3BBB) company while he does repairs on the repeater. Somebody has to be there to make sure he turns the repeater back on when he leaves!

I am currently employed by The School District of Philadelphia, working out of The Office of Environmental Management and Services.

I would like to continue serving as one of your Directors, so I am asking for your support in the upcoming elections.

Thank you, Gene.

Steve Hoch, WU3I
Candidate for Director

I was licensed in 1978 and joined Phil-Mont in 1980, and have held the offices of President, Vice President, Secretary and Board Member.

I have been the trustee of W3AA for 5 years, and Field Day chairman for 4 years.

If you have antenna, and most of you do, I may have put it up... you never know. I am also a Volunteer Examiner and have been since the late 1980s.

First licensed as KA3AMO, I changed to WU3I in 1991 with my upgrade to Extra. I am active in all Phil-Mont public service events such as MS150, Field Day, Paddlerama (some won't remember this one), MS Walks and others. I have also involved my wife Joann, N3FTC, and son Bryan, N3VJE, in these events.

I firmly believe we have one of the best clubs in the area, and want to see it stay that way.

Thanks for your vote.
Steve WU3I

Bill Popovic, W3AOK
Candidate for President

I have always been interested in radio. I remember tuning the short wave bands on a shiny black mahogany Grundig console forty years ago, and talking my Dad into stringing a dipole on the roof.

I moved into this house in 1984, and noticed a tri-band beam on a neighbor's house. After knocking on Jack's (N3ALW) door, and getting some information, I got my first license in 1986.

I gathered information about all the Amateur clubs in the area, and joined several of them. They were all good clubs, but I felt Phil-Mont did the most to further the hobby with the VHF/UHF repeater, VEC program, club station (now W3AA), public service events, CW net, and Field Day.

Dealing with the bottom two percent of society during twenty-six years with the Philadelphia Police Department has a negative effect on your opinion of human nature. Talking with hams around the world was great therapy for me. The vast majority of hams are courteous, helpful, positive people who enjoy sharing their knowledge. Every day, I still de-stress my commute to my new job in Newtown by talking on the repeater, or HF, from the car.

I have held several different Phil-Mont offices over the years.

I look forward to serving another year as club president, and welcome all suggestions, constructive criticism, and volunteers for any service you are interested in.
W3AOK, Bill
